

Description

- Smart new solution for mounting 1 inch tactical lights of handguns.
- Quickly installs with the tail-cap switch in the perfect position for easy and correct tactical operation.
- Fits perfectly on most handgun accessory rails.
- Bolt locking system secures the tactical light to the mount.
- Quick release mechanism allows fast installation or removal of mount.
- Allows perfect access to the tailcap button by the non-firing thumb.
- Tough, rigid and lightweight reinforced polymer construction.
- Manufactured by FAB Defense in Israel.
