

**Description**

The Sleeper Lite Square Foot is based off the same principles of our robust Sleeper Lite (Mummy Style) sleeping bag but with a square bottom instead of the mummy style. The Sleeper Lite Square Foot was a well received addition to our Sleeper Series performance range of sleeping bags. The major difference is that the Sleeper Lite Square Foot can be unzipped and opened fully to make a blanket to lie on or to throw over you. Also this sleeping bag is perfect for those individuals that feel as though a "Mummy Style" bag is too restricting or just like to have a little extra foot room and maybe store some gear.

Length: 86"

Chest: 60"

Pack Size (fully compressed): 10" x 10"
