

Description

TEN-TAP® programmable switch allows user selection of one of three different programs:

high/low/strobe (factory default)

high only

low/high

C4® LED output:

High: 300 lumens; 17,000 candela; runs 2.75 hours

Low: 50 lumens; 2,500 candela; runs 24 hours

Strobe runs 6 hours

High-performance, anti-static, thermoplastic material resistant to chemicals and solvents

Combination of visual and mechanical polarity protection ensures correct installation of batteries

Light designed to not power on if batteries are installed incorrectly

Powered by 4 "AA" alkaline batteries (included)

Sealed switch design protects it from corrosion caused by battery leakage

Smooth parabolic reflector produces a tight beam with optimum peripheral illumination

Regulated run time provides consistent performance throughout battery life

O-ring sealed, dust-proof, water-tight enclosure

IP67 rated for dust-tight and waterproof to 1 meter for 30 minutes; IPX4 for water spray

3 meter impact resistance tested

Ergonomically designed for maximum hand comfort

7.00 in. (17.78 cm); 8.2 oz (213 grams) with batteries (included)
