How Does It Work?

**EASY &
SIMPLE**

Call today, and we will set you up with a pre-order document. Print however many you need as you begin to sell items. Collect money per order as you go. When you're finished collecting orders, send us the total number of orders. We'll make the items, and ship to you!

Example: Order Form

ITEM	DESIGN	QUANTITY	TOTAL
			

IS THIS REALLY FREE?

Yes! It Cost nothing to sign up

**The more you sell,
the larger your profit margin!**

Insulated Tumbler Example:

If you bought 100 tumblers, we would sell to you at \$5.50 each.
Selling at \$15 a piece, your profit would be \$9.50 for every tumbler sold.

That's a total of \$950 dollars for your unit!

OR

If you bought 50 tumblers, we would sell to you at \$7.00 each.
Selling at \$15 before, your profit would become \$8.00 per tumbler.

That's a total of \$400 dollars for your unit!

*Basically, the more you buy the more money you make.
You buy from us and then sell at almost twice the price!*

(Purchase tumblers based off pre-orders.)
